

THE BUILD · NAUTICAL BLUE METALLIC

POWER WAGON

A 2022 Ram 2500 Power Wagon, reimagined as a 1940s flat-fender on the modern chassis and drivetrain.

THE CONCEPT

1940S BODY, 2022 CAPABILITY

This build starts with a 2022 Ram 2500 Power Wagon Crew Cab and reimagines it as a 1940s flat-fender Power Wagon, while keeping the modern Ram chassis, drivetrain, and four-wheel-drive capability underneath. It looks like the truck the GIs brought home and drives like a current heavy-duty 4×4.

TWO AND A HALF YEARS. TENS OF THOUSANDS OF HOURS.
